

Rubber-Like

High tear strength, malleable parts

PRODUCTION

PROTOTYPING

SLS

DuraForm® TPU Elastomer

DuraForm® Flex

FIGURE 4

Figure 4® RUBBER-BLK 10

Figure 4® RUBBER-65A BLK

PROPERTIES:

Durable

Abrasion and tear resistance

Excellent detail and surface finish

Good recovery memory

GOOD FOR:

- Functional prototypes with rubber-like properties
 - Gaskets
 - Hoses
 - Seals
- Low to mid-volume direct manufacturing of end-use parts
- Strain-relief applications

DuraForm® TPU Elastomer

A rubber-like thermoplastic elastomer for use on the sPro™ 60 HD-HS.

DuraForm® Flex

A durable elastomer for use on the sPro™ 60 HD-HS.

Figure 4® RUBBER-BLK 10

A malleable material with high tear strength for hard, rubber-like parts. For use with Figure 4 technology.

Figure 4® RUBBER-65A BLK

A mid-tear strength, production-grade rubber combined with Shore 65A hardness and a high elongation at break.
